FOUR-WEEK OBEDIENCE TRAINING:

Canyon View’s Four-week On-Leash Training Program includes teaching the dog the five basic obedience commands: sit, down, stay, heel, and come. Off Leash Training is an advanced training program using voice commands and hand signals, and teaching the dog to respond from a distance without using a leash.

BEHAVIORAL ISSUES:

Behavioral issues are also addressed in Canyon View’s Four-Week Programs. We do not allow chewing, jumping, digging, play biting, and barking. Canyon View trainers will teach the dog commands to aid in stopping these behaviors.

AGGRESSION ISSUES:

Training for aggressive dogs is also offered by Canyon View. Results with aggression issues may vary. This behavior can often be corrected or the behavior significantly controlled, however, we cannot guarantee the dog’s aggression issues will be completely eliminated and/or resolved.

HOUSEBREAKING:

Housebreaking is also offered, but successful results may vary depending on the dog and follow through from its owner. **Owner's Initials:** _____

GUARANTEES and EXCEPTIONS

Canyon View guarantees its Four-Week On-Leash Program for the life of the dog. If at any time the dog stops responding to commands given by the Owner(s), Canyon View will re-evaluate the dog. At the conclusion of the evaluation, if the dog does not respond to the trainer's commands Canyon View will provide retraining for the dog, free of charge. Usually dogs do not forget the commands they are taught, and often additional training with the Owner(s) may be needed rather than with the dog. If Canyon View determines the dog is responsive to the trainer's commands but not to the Owner(s), then brush up lessons at the Ranch will be offered to the Owner(s), free of charge.

Due to so many variables, including the Owner's role in the dog's behavior, Canyon View does not guarantee results in correcting housebreaking, aggression, or other behavioral issues such as chewing, digging, jumping, play biting, and barking. Additional fees may be charged for retraining, however, our trainers are available by phone or for private consultation at the ranch as a constant source of information, free of charge.

Canyon View does **not** offer guarantees on the Four-Week Off-Leash Program, however, our trainers will provide follow up training lessons at the Ranch to the Owner(s), free of charge. **Owner's Initials:** _____

OWNER'S RESPONSIBILITY

Training your dog to obey commands or to behave is only half the process. As the dog's owner(s), your participation in private lessons and learning how to communicate with your dog is the other half. Canyon View recommends that at least one person in a family should attend three private lessons before the dog returns home. After the dog goes home it is essential to follow through and be consistent with the commands and corrections that you were taught in the private lessons. Successful results will vary depending on your consistency, your follow through, and the amount of time you spend working with your dog. **Owner's Initials:** _____

SCHEDULING PRIVATE LESSONS

Private lessons are schedule by appointment only. Another client may be scheduled immediately following your lesson, so please be on time. If you arrive late for your lesson we may have to reschedule your appointment for another time. **Owner's Initials:** _____

In signing this agreement below, you the Owner expressly agree to the terms and conditions set forth above, and agree to pay Canyon View Ranch all applicable fees for training:
